

CORONAVIRUS UPDATE

February 2021

Help is available from our village charity

The BELASYSE COOK CHARITY donates grants to residents of WORLABY, young and old, who are in financial need, hardship or distress. This can be help with, for instance, travelling costs for hospital visits, bereavement or paying for items or services.

At the present time we are particularly thinking about households badly affected by the Coronavirus. It may be that you know of someone affected by illness or severe loss of earnings.

This may include having financial difficulty as a result of losing your job or being furloughed. Your employer may be unable to make up the difference or you may be in financial difficulty and self-employed or freelance.

Whilst we cannot make up the difference, we are able to give small grants from the village Belasyse Cook Charity that could help, which we have already been able to do during 2020.

If you yourself, or anyone you know needs help please contact any of the trustees.
